

Used by educators in
all 50 states!

Perfect for STEM Ed

Makey Makey is an invention kit for the 21st century. Turn everyday objects into touch pads and combine them with the internet. It's a simple invention kit for Beginners and Experts doing art, engineering, and everything in between. Build a high-five photo-booth, or a slippery banana peel DDR pad, semi-digital board game, or an interactive maze for your pencil or hamster! Invent it all with your computer, some alligator clips, and a Makey Makey.

Winner of multiple awards and featured in TED talks, the Makey Makey is a breakthrough learning tool used by educators to teach Invention Literacy, Making, and Design Thinking.

- ▶ Makey Makey works on Windows, Mac, Chromebook and on many flavors of Linux (Ubuntu, etc.)
- ▶ Used by educators in K-12 classrooms, media specialists, coding teachers, and after school STEM education enrichment programs offered by the YMCA, Boys & Girls Clubs, Girl Scouts, and 4-H
- ▶ Access to free STEM lesson plan library
- ▶ Join our thriving online educator community
